

## Dr. N.E. Roberts Elementary School

Video links to be used for art lessons for April 16-29, 2020

**PARENTS:** Thank-you students and parents for turning in the previous assignment for your grade level. I have enjoyed looking at your art!  
Turn in this next one also the same way as you did before --- by taking a picture of your artwork and attaching it to an email to me, [david.robinson@polk-fl.net](mailto:david.robinson@polk-fl.net).

**If you're bored, check at the end of this document for one more video link.**

My email is above, and you may reach me directly at (813) 815-0925.

Thank-you,  
Mr. Robinson

### Kindergarten

Parents of Kindergarten students:

Watch this video with your child, then help your child make a suncatcher.

**Suncatcher**     <https://www.artsonia.com/teachers/ideas/entry.asp?id=27>

**TIPS:** Remember, if there are any materials you don't have, please feel free to use another material which is the closest substitute. If you don't have coffee filters, you may cut a piece of paper into a circle instead. Your child doesn't have to copy the design shown in the video. I would prefer that he or she be creative and invent aspects of it from their imagination. You might want to guide your child into simplifying the design, if desired. For example, the number of radii (radiating lines) around the outside of the circle: it might be easier for a kindergartener to draw less lines than what you see in the video.

### 1<sup>st</sup> Grade

Parents of 1<sup>st</sup> Grade students:

Watch this video with your child, then help your child do a drawing like this to the best of his or her ability. If you don't have any of the materials, try to find substitutes for them.

**Hands and Spirals**     <https://www.artsonia.com/teachers/ideas/entry.asp?id=26>

**TIP:** The way that this art teacher did this project may be a little too visually busy for 1<sup>st</sup> graders. It might be a good idea for you to guide your child toward simplifying his or her design (i.e., less hands and/or less spirals, more space between elements, etc.).

## **2<sup>nd</sup> Grade**

Parents of 2<sup>nd</sup> Grade students:

Watch this video with your child, then help your child complete this three-dimensional artwork to the best of his or her ability. If you do not have any of the materials, try to find substitutes for them.

**Layered Look (“Pop-up” Scene)**

<https://www.artsonia.com/teachers/ideas/entry.asp?id=31>

## **3<sup>rd</sup> Grade**

Parents of 3<sup>rd</sup> Grade students:

Watch this video with your child, then have your child design his or her own cross-sectional ant hill, using their imagination to make it unique. Make sure to have fun! If you don’t have any of the materials, try to find substitutes for them.

**Ant Hills**

<https://www.artsonia.com/teachers/ideas/entry.asp?id=28>

## **4<sup>th</sup> Grade**

Parents of 4<sup>th</sup> Grade students:

Watch this video with your child, then help your child complete this type of drawing to the best of his or her ability. If you do not have any of the materials, try to find substitutes for them.

**Face-Vase (Figure-Ground Illusion)**

<https://www.artsonia.com/teachers/ideas/entry.asp?id=23>

**TIP:** When you’re drawing the facial profiles, you may use the grid lines (vertical and horizontal lines) that the teacher in the video uses, as an aid, or you may just draw the faces (freehand) if you wish.

## **5<sup>th</sup> Grade**

Parents of 5<sup>th</sup> Grade students:

Watch this video with your child, then have your child complete this type of drawing to the best of his or her ability. If you do not have any of the materials, try to find substitutes for them.

**Doodle Line Design**

<https://www.artsonia.com/teachers/ideas/entry.asp?id=33>

**Here is an extra assignment (optional) if you’re bored, and if you have any yarn.** This one is for any grade, but it may be a little difficult for younger children. Have fun!

**Finger Knitting**
